

AUGUST 2016 EDITION

Welcome to the
Gasline Newsletter

Published monthly by LPG and
Gas Associations of New Zealand

Gasline is published regularly as part of the industry's efforts to encourage the direct use of natural gas and LPG into households and small businesses.

Using natural gas and LPG as a direct energy source offers numerous cost, environmental and energy efficiency benefits. Gas New Zealand hopes to educate consumers and policy makers about the many advantages of making wider use of this strategic energy asset.

Latest New Zealand Gas Story is 'one of change'

The fourth edition of the New Zealand Gas Story has been published by the Gas Industry Company (GIC).

New additions to the report chart developments that have occurred in the industry since the last edition was published in March 2015.

Only forum dedicated to gas industry around the corner

The next instalment in NZ gas industry events is set to be the most informative to date, says LPG Association executive director Peter Gilbert.

[Online registration](#) is now open for this year's Gas NZ Industry Forum, hosted November 2-4 at the Millennium Hotel in the picturesque town of Queenstown.

More than 10 guest speakers from both gas and LPG organisations will give presentations across two days in what Peter hopes will attract more than 130 delegates.

EECA database estimates NZ's energy use

A revamped government database launched recently showcases how New Zealand used its energy in a range of categories across three years.

The [Energy End Use Database](#) is compiled by the Energy Efficiency and Conservation Authority (EECA).

Campaign focuses on using gas safely

Learning how to use a gas cooker in a caravan correctly is one of the ways Energy Safety is helping thousands of New Zealanders stay safe way while using gas.

The gas safety campaign, which launched last month, lets New Zealanders know gas is instant, reliable and efficient but that it needs to be used safely.
