

AUGUST 2019 EDITION

Welcome to the
Gasline Newsletter

Published monthly by LPG and
Gas Associations of New Zealand

Gasline is published regularly as part of the industry's efforts to encourage the direct use of natural gas and LPG into households and small businesses.

Using natural gas and LPG as a direct energy source offers numerous cost, environmental and energy efficiency benefits. Gas New Zealand hopes to educate consumers and policy makers about the many advantages of making wider use of this strategic energy asset.

Gas reserves increase 7 percent

Development and appraisal work helped increase the country's natural gas and LPG reserves by about 7 percent last year, according to government data.

Proven and probable remaining reserves stood at 2,116 Petajoules at January 1, up about 130 PJ from a year earlier.

LPG industry aims for 100 percent transition to bioLPG by 2040

A full switch to bioLPG could deliver up to 90 percent reduction in carbon emissions, the newly re-branded trade association representing the liquefied petroleum gas (LPG) industry in the UK has said.

Liquid Gas UK has launched its new vision – laying the marker for the industry to transition to 100 percent bioLPG by 2040.

Electricity and gas are NZ's energy future, says report

Reducing greenhouse gas emissions can be achieved using renewable electricity to reduce transport and process heat emissions, a report released in July states.

The independent Interim Climate Change Committee's (ICCC) report on Accelerated Electrification was released last month by the Minister for Energy and Resources, Hon Dr Megan Woods.

Following a year-long evidence and analysis-based inquiry, the Committee recommends a series of actions the government can take to reduce greenhouse gas emissions, using renewable electricity to reduce transport and process heat emissions.

GasNZ Forum: investigating the energy sector's biggest questions

Over the next three Gasline issues, a collection of the [GasNZ Forum](#) speakers will enlighten readers with an extract of their upcoming presentations and the challenges the sector faces.

Of the 16 speakers slated to present at this year's Gas Industry Forum in Christchurch, Director Government Relations at Gas Infrastructure Europe, Barabara Jinks, will dive deeper into what's happening on the global stage.
