Gasline is published regularly as part of the industry's efforts to encourage the direct use of natural gas and LPG into households and small businesses.

Using natural gas and LPG as a direct energy source offers numerous cost, environmental and energy efficiency benefits. Gas New Zealand hopes to educate consumers and policy makers about the many advantages of making wider use of this strategic energy

The gas industry's mixed bag during lockdown

As New Zealand completes its fourth week of a month-long Covid-19 lockdown and moves into Alert level 3, many industries have been hamstrung by the inability to work.

However, it has been a bit of mixed bag for the gas industry.

Like many businesses, some duties have been completed from home, while the long-established gas network has continued to operate virtually unabated.
