

## Welcome to the Gasline Newsletter

Published monthly by LPG and Gas Associations of New Zealand

Gasline is published regularly as part of the industry's efforts to encourage the direct use of natural gas and LPG into households and small businesses.

Using natural gas and LPG as a direct energy source offers numerous cost, environmental and energy efficiency benefits. Gas New Zealand hopes to educate consumers and policy makers about the many advantages of making wider use of this strategic energy asset.

[Europe makes strides in CCS](#)

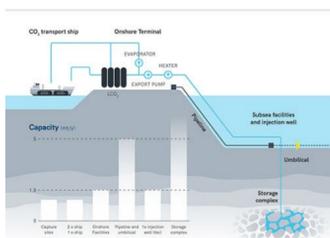

[Propane industry offers renewable LPG amid climate concerns](#)

[Green Hydrogen: just around the corner?](#)

[New partnership to accelerate use of renewable DME, decarbonise transportation](#)

[Unlocking more gas to lower prices](#)

### Europe makes strides in CCS

As reported in the *Global Voice of Gas*

Governments across the world view carbon, capture and storage (CCS) technology as the solution to decarbonising areas of industry that would otherwise be difficult to abate.

### Unlocking more gas to lower prices

From *Oil and Gas News Aus*

Australia Prime Minister, Hon Scott Morrison, believes there is a need to unlock more gas in order to lower domestic prices in Australia.

Speaking at the National Press Club in the lead up to the 2021 budget, Mr Morrison said the government had committed to resetting its east coast gas markets, unlocking gas supplies, establishing a new gas hub and improving the gas grid distribution systems as part of its gas-fired recovery plan.
