

JUNE 2021 EDITION

Published monthly by LPG and Gas Associations of New Zealand

Gasline is published regularly as part of the industry's efforts to encourage the direct use of natural gas and LPG into households and small businesses.

Using natural gas and LPG as a direct energy source offers numerous cost, environmental and energy efficiency benefits. Gas New Zealand hopes to educate consumers and policy makers about the many advantages of making wider use of this strategic energy asset.

[Use farm, metro waste for green LPG](#)

[Government commits to national energy strategy](#)

[Gas Industry Company: Methanex, gas critical to energy transition](#)

[Gas energy is here to stay – gas industry launches Future Sure campaign](#)

[Energy Australia okays net-zero hybrid power plant](#)

[GasNZ Forum update](#)

#### Use farm, metro waste for green LPG

New Zealand can leverage biofuel production trends overseas to make renewable LPG from municipal and agricultural waste by 2035, an industrial engineering consultancy says

[Read more](#)

#### Government commits to national energy strategy

The Government will develop a national energy strategy to guide the transition to a low-carbon economy, Energy and Resources Minister Megan Woods told the CEP Conference 2021 in Christchurch late last month.
