OnGas staff wins national health and safety award for innovative idea

Nick’s idea credited by Health and Safety Awards.

The New Zealand Health and Safety awards credited Nick Holland, a Senior Driver for OnGas, with a national award for innovative idea in addressing health and safety risks at work. Nick’s idea was so successful that it was awarded the Workplace Best Initiative to Address a Health and Safety Award. This recognition highlights Nick’s commitment to ensuring a safe and healthy work environment for himself and his colleagues.

The H21 Leeds City Gate project aims to determine the feasibility both technically and economically of converting the existing natural gas network to 100% hydrogen. A recent report in the UK suggests the city of Leeds can be converted from natural gas to 100% hydrogen, which would enable the city to switch to 100% hydrogen, reducing carbon emissions drastically, and converted from its existing natural gas network to 100% hydrogen. The Gas NZ Industry Forum is returning for 2017 on the 7th, 8th and 9th of November, at Wairakei resort in Taupo. New Zealand hopes to educate consumers and policy makers about numerous cost, environmental and energy efficiency benefits. Gasline is published regularly as part of the Gasline Newsletter. Gas New Zealand is published monthly by The PR Company for the LPG Association and Gas Association of New Zealand. The views expressed in this publication are not necessarily those of the LPGA, or GANZ.
