

JUNE 2018 EDITION

Published monthly by LPG and Gas Associations of New Zealand

Gasline is published regularly as part of the industry's efforts to encourage the direct use of natural gas and LPG into households and small businesses.

Using natural gas and LPG as a direct energy source offers numerous cost, environmental and energy efficiency benefits. Gas New Zealand hopes to educate consumers and policy makers about the many advantages of making wider use of this strategic energy asset.

GANZ supports the review of important NZUAG Code

The review of the National Code of Practice for Utility Operators' Access to Transport Corridors is moving into second gear.

Results of the first round of submissions are being analysed by the NZ Utilities Advisory Group (NZUAG), which undertook a consultation period through March-April 2018.

Gas is the enabler of the future, National MP says

"Gas is our friend, not our enemy and has a very important part to play in a renewable future."

So said National MP for New Plymouth, Jonathan Young, when urging the government to keep Taranaki's gas industry when he wrote '[Gas is the enabler of the future](#)' in *Stuff*.

Gas NZ proactively addressing consumer concerns

Residential gas consumers have raised concerns about gas usage in their homes following the government's recent ban of new off-shore drilling permits.

The government's recent change in legislation has led many of these consumers to believe that New Zealand's gas supply is limited, however this is not the case.

The future role of NZ's extensive gas network to go under the microscope

Taranaki-based energy companies First Gas and Powerco are investigating the role that gas pipeline infrastructure can play as New Zealand moves to a low-carbon economy.

The companies have commissioned Vivid Economics to explore potential scenarios for the future use of the gas network: analysis will build on the considerable 'low-carbon economy' scenario work undertaken to date in New Zealand.

WLPGA discuss how industry and government can cooperate to benefit consumers

An LPG roadmap is essential to ensuring the world meets vital challenges like protecting human health and the environment whilst addressing climate change.

That's one of several recommendations made by the World LPG Association (WLPGA), released in its 88-page LPG Policy Document.
